LiveToRock

Traigh Scott, Jacob Clark, Cass Alcorn, Kc Weaver

Team and Project

Traigh Scott: Game design concentration

Cass Alcorn: Cybersecurity concentration

Kc Weaver: Game design concentration

Jacob Clark: General CS/Undeclared concentration

Client and LiveToRock:

Michael

Former Ball State Student, currently residing in Georgia. Music has always been a big part of his life. Got into pharmaceuticals, specifically relating to cancer patients. Started another non-profit before this.

Feedback

Mentor Feedback:

…

Client Feedback:

- It looks really good, the words and the titles being lower case look silly but that might be default text on wordpress. The blog would also be cool if it had a way to navigate them so people can find what interests them.

Iteration 4 Features

UI changes

All admins get emailed when videos uploaded

Iteration 5 Plans

Filter comments/forums

Printful API for Merch Page

Calendar setup

Podcasts on website

Users request actions through website

Who Dids Whats

Traigh Scott: Made LifePerformance email all admins, researched merch page api, helping with tests, and working on calendar plugins

Cass Alcorn: Set up the testing suite; installed and enabled code coverage; wrote tests for code; fixed pre-existing tests for new features; minor admin stuff for Client

Kc Weaver: Assisted with updated email functionality, fixed font errors

Jacob Clark: Refactor JamSession Blog, Update UI, Add WYSIWYG text editor to blog, Add delete buttons to blog.

Interesting slides
